Summary

Bachelor's degree in computer science & engineering.

.NET Software Developer with more than 4 years of experience, proficient in microservice architecture and various software design patterns. Skilled in developing scalable solutions with modern .NET technologies, database management, and containerization.

Education

Istanbul Kultur University — B.Sc. in Computer Science & Engineering (English), 2023

Work Experience

Junior .NET Developer | Aydınlı Grup — Software Development Unit | July 2024 – Present

- Developed complete business logic and contributed to additional features for the company's decision supports software (.NET Framework).
- Migrated a background service from a Windows application to a web application (.NET Core).
- Created a RESTful API for retrieving stock information for internal systems.
- Currently leading the development of a microservice and corresponding Razor Pages for the web application.
- Provided day-to-day user support and implemented new features in the company's Excel Add-In software.

Technologies: .NET 6,8,10 (MVC, MVVM, Razor Pages, Web API), .NET Framework (WPF, WinForms), MS SQL, MongoDB, EF Core, Dapper, DevExpress, Syncfusion Grid, Postman, Git, Docker, GitHub Actions.

Freelance Software Developer | October 2022 – June 2024

- I was freelancing as a software developer between October 2022 and June 2024. I've developed 9 different web applications for some local businesses.
- I have developed web applications and databases using .NET 6, Angular and MS SQL.

Intern Software Developer | TURK EKONOMI BANKASI A.S. — TEB Affiliates Software Development Unit | July 2022 – October 2022

- Contributed to the development of infrastructure software for TEB Affiliates using .NET Framework (C#).
- Gained experience in Agile project management, including daily/weekly meetings, sprint planning, and task distribution.
- Improved problem-solving skills within the software development lifecycle.

Skills

Languages & Frameworks: C#, .NET, Django and Go.

Databases & ORM: MS SQL, MongoDB, EF Core, Dapper

Frontend Tools: DevExpress, Syncfusion Grid (Basic UI/UX knowledge and experience)

Tools & Practices: Git, Docker, GitHub Actions, Postman, CI/CD pipelines

Architectures & Patterns: Microservices, Design Patterns (Repository, CQRS, etc.)

AI Tools: GPT 5+, Codex, Claude Opus & Sonnet

Certificates

- ASP.NET Core Web API Certificate — BTK Academy (Credential ID: VP1cJqnVVy)
- Microsoft .NET Fundamentals — Turkish Economy Bank Trainee Program
- Developing ASP.NET MVC Web Applications — Turkish Economy Bank Trainee Program

Languages

- English: C1 (Professional & Fluent Speaker)
- German: A2 (Sufficient for Social Life)

Personal Projects
