01 PROFILE

Software Developer with hands-on experience across enterprise .NET applications, backend services, desktop development, database systems and internal business tools. Proficient in C#, .NET, SQL Server, WPF and ASP.NET Core, with additional experience in microservices, containerization and CI/CD.

02 EXPERIENCE

Jul 2024 - Present

Junior .NET Developer

Aydınlı Grup - Software Development Unit

- Developed end-to-end business logic and additional features for an internal decision-support application built with .NET Framework.
- Migrated a background service from a Windows application to a web application using .NET Core.
- Created a RESTful API for retrieving stock information for internal systems.
- Leading the development of a microservice and its Razor Pages interface for an internal web application.
- Provided day-to-day user support and implemented new features for the company's Excel Add-In software.

CORE STACK

.NET 6/8/10, MVC, MVVM, Razor Pages, Web API, .NET Framework, WPF, WinForms, MS SQL, MongoDB, EF Core, Dapper, DevExpress, Syncfusion Grid, Docker, GitHub Actions

Oct 2022 - Jun 2024

Freelance Software Developer

- Delivered 9 web applications for local businesses.
- Developed web applications and database-backed solutions using .NET 6, Angular and Microsoft SQL Server.

CORE STACK

.NET 6, Angular, Microsoft SQL Server

Jul 2022 - Oct 2022

Intern Software Developer

Türk Ekonomi Bankası A.Ş. (TEB) - Affiliates Software Development Unit

- Contributed to infrastructure software for TEB affiliates using C# and .NET Framework.
- Gained hands-on experience with Agile practices including daily and weekly meetings, sprint planning and task distribution.
- Strengthened problem-solving skills through practical involvement in the software development lifecycle.

CORE STACK

C#, .NET Framework

03 TECHNICAL SKILLS

Languages & Frameworks

Data & Persistence

Backend & Architecture

Infrastructure & Tools

Enterprise UI & Integration

Additional Technologies

C#, .NET, ASP.NET Core, .NET Framework, WPF, Razor Pages, MVC

Microsoft SQL Server, MongoDB, Entity Framework Core, Dapper

REST APIs, Microservices, Repository Pattern, CQRS

Docker, Git, GitHub Actions, Postman, CI/CD pipelines

DevExpress, Syncfusion Grid, VSTO / Excel Add-In

Django, Go

04 EDUCATION

Istanbul Kültür University

2023

B.Sc. in Computer Engineering (English)

GRADUATION PROJECT

Analyzing Mental Fatigue Through Physiological Signals via Deep Learning Methods

05 CERTIFICATIONS

- ASP.NET Core Web API Certificate - BTK Academy (Credential ID: VP1cJqnVVv)
- Microsoft .NET Fundamentals - Turkish Economy Bank Trainee Program
- Developing ASP.NET MVC Web Applications - Turkish Economy Bank Trainee Program

06 LANGUAGES

English C1 - Professional proficiency**German** A2

07 CORE FOCUS

- Enterprise .NET application development
- Backend APIs and microservice-oriented systems
- SQL, data processing and business-rule implementation
- Desktop applications and enterprise integrations

PORTFOLIO**Selected projects, professional work and technical details**

My portfolio includes selected enterprise work, backend and microservice projects, SQL/data-focused solutions, and additional details about my experience and technical stack.
